## About Loading Your Downloaded Patches

When you load your new patches into your GT-100, they replace your existing User patches in the GT-100's memory. Since you probably want to keep your User patches, here's how to safely store them on your computer using the Librarian application that came with your GT-100. You can then re-load them whenever you want.

If you've already got the GT-100 Librarian installed and set up, you can jump now to "Backing Up Your User Patches" on page 3.

## Setting Up and Understanding the GT-100 Librarian

### Installing and Configuring the Librarian

- 1 The GT-100's Librarian and driver software is available on the GT-100 Downloads tab at RolandUS.com. (Click [here](#).)
- 2 Download
  - the *GT-100 driver*—for your computer's operating system.
  - the *GT-100 Librarian*—for your computer's operating system.
- 3 Follow the included instructions to install the driver software.
- 4 Install the Librarian according to the included instructions.
- 5 Launch the Librarian.
- 6 Click the Setup menu, Set Up MIDI Devices...
- 7 Set the GT-100 as follows:
  - *Input*—GT-100
  - *Output*—GT-100

## Understanding the Librarian

The Librarian has two types of windows:

- the *Main window*—shown below. The Main window exchanges patches with the GT-100.

Temporary Read/Write	Number	Patch Name	Main			
			Memo 1	Memo 2	Memo 3	Memo 4
	U01-1					
	U01-2					
	U01-3					
	U01-4					
	U02-1					
	U02-2					
	U02-3					
	U02-4					
	U03-1					
	U03-2					
	U03-3					
	U03-4					
	U04-1					
	U04-2					
	U04-3					
	U04-4					
	U05-1					
	U05-2					

- *library windows*—that contain collections of patches, such as the window shown below. To get a patch or group of patches from a library into your GT-100, you must first copy them into the Librarian's Main window. To add patches to a library, you copy them from the Main window.

Temporary Read/Write	Number	CT-100Patches.gcl	
		Patch Name	Memo 1
	1	Here We Are Now	
	2	Exit Light	
	3	Sweet Child	
	4	Glitter Gold	
	5	Relax Nightman	
	6	Butterfly@zebras	
	7	Call Home	
	8	Smoke OnThe Lake	
	9	Sweet Home	
	10	Back To Black	
	11	CalifornPeppers	
	12	Go Go Johnny	
	13	Walk LikeThis	
	14	Fire or Flames	
	15	Coming In Waves	
	16	Crazy,It Goes	
	17	I Want It Now	
	18	Fear TheDark	
	19	Rock TheCannon	
	20	After I life	

Library files have a ".m2l" file extension.

## Backing Up Your User Patches

Now that you have the Librarian ready to go, here's how to back up your existing User patches and then load your newly downloaded patches.

- 1 At the top of the Main Librarian window, there are four boxes:

You can retrieve all of the patches in the GT-100's User bank for storage, or just the desired patches.

- 2 To grab
  - *all of the patches in the User bank*—click Read All.
  - *specific patches*—command-click (Mac) or control-click (Windows) the patches you want and click Read Selected.
- 3 After the data's been retrieved from the GT-100, select **Duplicate** from the Librarian's File menu—the Librarian creates a new library window that contains all of the patches you grabbed from the GT-100.
- 4 Select **Save As...** from the file menu and select a location on your computer's hard drive in which to store your User patches.

Library files have a “.m2l” file extension.

In the future, you can open this library and add or remove patches to keep all of your GT-100 patches stored in an order that makes sense to you.

You can return patches to the GT-100's memory by

- 1 opening the library
- 2 copying the desired patches into the Main Librarian window
- 3 sending them back to the GT-100 using the Write All or Write Selected buttons at the top of the Main window.

## Loading Your Downloaded Patches Into the GT-100

- 1 Open one of the new GT-100 library files you downloaded.
- 2 Copy and paste its patches into the Librarian's Main window.
- 3 Click on Write All—or select only the desired new patches, and then click on Write Selected—to load the patches into the GT-100's User memory.
